

# Installation Instructions

## 3110/3110FV/G2-3110 Internationally Compliant Handrails

Please read all instructions before installing handrail.

### Important

1. Acclimate materials 24 hrs before installation. Maintain temperature controlled environment after installation.
2. Install in accordance with manufacturer's installation instructions. Failure to do so will void the warranty.

### Installation tips

1. Cut covers up to 1/16" (1.6mm) longer to ensure a tight fit.
2. Lubricate blades when cutting aluminum to reduce burrs.

### Recommended tools

Safety Glasses, Tape Measure, 3/8" socket for machine screw hex bolt, 7/16" socket for wood screw hex bolt, Level, Phillips and Flat head Screwdrivers, Power Drill, Drill Bits - 1/4" masonry (concrete/concrete block), Power Miter Saw, 10" Blade with 60-80 Carbide Tipped Teeth.

# Installation Instructions

## 3110/3110FV/G2-3110 Internationally Compliant Handrails

Please read all instructions before installing handrail.

1. Cut aluminum retainer to desired length, leaving allowance for returns, outside corners and inside corners. See Figure 1.

2. Drill holes in the "V-groove" of the aluminum retainer for brackets, returns and corners using a 1/4" (6mm) drill bit. Position retainer against wall at desired height allowing for returns and corners. When assembled, the top of the handrail is 4 1/16" [103] above the "V-groove." Level and mark bracket holes on wall. Drill marked holes with 3/4" (19mm) drill bit for toggle bolts (drywall installation) or 1/2" (13mm) drill bit for lead anchor (concrete wall application). See Figure 2.

## 3110/3110FV/G2-3110 Internationally Compliant Handrails

Please read all instructions before installing handrail.

FIG. 3

- Using a 1/4" (6mm) drill bit, drill hole through the tab on the returns/corners for the top portion of the handrail Slide tabs onto top portion of retainer and fasten. For the lower portion of the handrail slip optional reveal onto returns/corners, slide tabs of returns/corners onto retainer and fasten. Loosely attach brackets to retainer. Mount on wall, level retainer and tighten screws to secure. See Figure 3.

FIG. 4

- Cut the inner bumper to the length between the tabs on the returns/corners. Position and snap inner bumper in place. Cut cover for top portion of handrail to length between returns and/or corners. (Note: Trim factory edges square before installation) Position cover on retainer at one end and work to the other end by snapping the cover over the retainer. See Figure 4.
